

Systematic Physical Chemistry

A General Course in Physical Chemistry for Overlooking the Chemistry B. Sc. Curriculum

The present course is offered for those students who intend to participate in our Chemistry M.Sc. program or take the comprehensive exam in physical chemistry. The general purpose of the course is to overview the main subjects taught during the physical chemistry courses at our university. The course is offered for 2 credits. The attendance on the lectures is obligatory. The students have to sign an attendance sheet at the beginning of the lectures. A maximum of 25 % absence is tolerated on the course.

The exam and grading

a) For those students who do not take the comprehensive exam: The course is ended with a written exam in the last week of the term-time. Those students who are displeased with grade of the written exam may take an oral exam in the examination period.

b) Those students who take the comprehensive exam in the same semester with this course, can choose the procedure in point a), or, alternatively, they can simply receive the grade of the comprehensive exam (without actually taking an exam for the present course).
